Your partner in sign systems

## Setting the standard

Spandex sign systems have set the industry standard worldwide since 1976. On their own or as part of a co-ordinating programme of signs, our systems offer unlimited design opportunities. You can confidently specify Spandex sign systems, secure in the knowledge that the sign system you've chosen has its future guaranteed by the world's largest sign supplies company.

## Versatile signs

It could be a hotel or an office complex; a shopping centre or a business park. Wherever there's a building to identify; a message to communicate; or people to direct; you'll find a Spandex sign system.... or the need for one. Spandex is responsible for the design and distribution of the industry's most successful and comprehensive range of aluminium sign systems.

## Innovative designs

If you think that working with sign systems might be too restricting - think again. We've designed our sign system components to be as versatile as you need them to be. So, the signs you design or specify can be as individual as you want them to be. No two signs need ever look the same. Unless, of course, you decide they should.

## Choosing the System

To find out what it is that makes Spandex sign systems so popular with architects, designers and signmakers alike, please spend a few moments looking at our sign systems individually. It won't take you long to realise that there are literally hundreds of good reasons why you should be working with Spandex sign systems too.

# C-Fix

## Directional Sign System

Directional signs.

Information points.

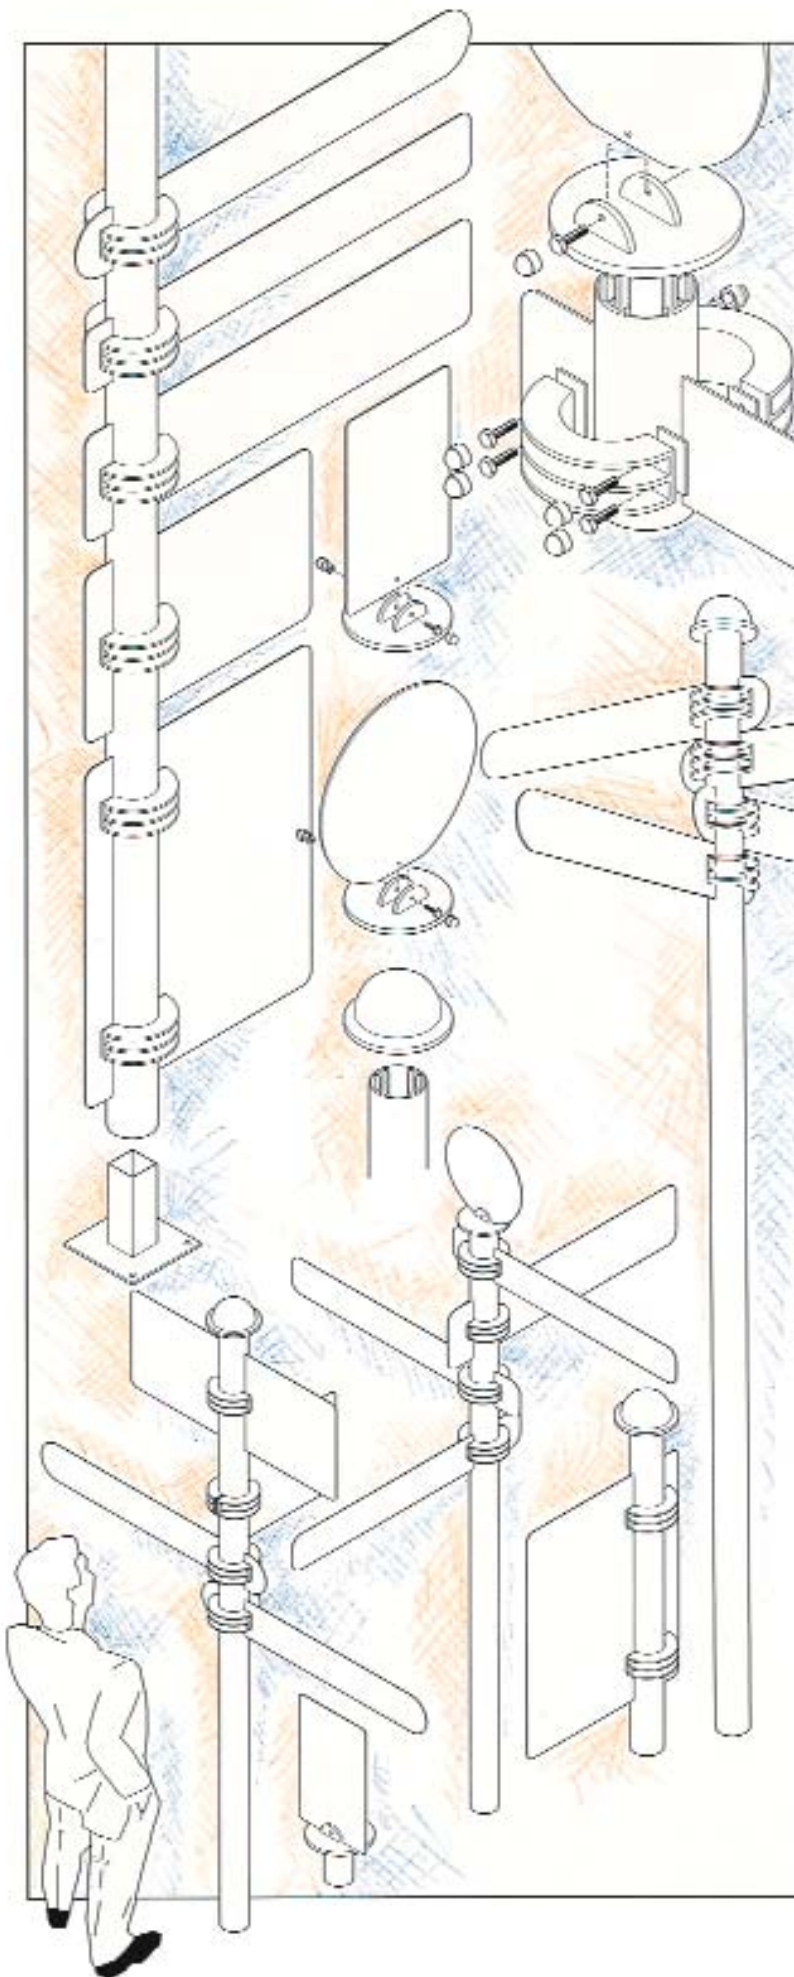

Advertising opportunities

**The C-Fix system is a refreshingly modern approach to 'fingerpost' signs.**

**This attractive modular sign system has been designed to meet the demand for an alternative to the overworked 'Victoriana' style.**

Exterior or interior locations; on its own or as part of a programme of signs; the C-Fix system can be used to direct, identify or inform. C-Fix signs can be finished with our Signpole 80 caps or the attractive C-Fix Dome Cap. Alternatively, you might like to top your sign off with a round or rectangular Crown Panel. The optional Crown Panel components are perfect for displaying additional information or advertising. C-Fix. Its versatility will appeal to you. Its profile will appeal to everyone.

# Infopanel

## Exterior Directory System

Robust directories

Information signs

Integrated downlighters

Easily customised

**Infopanel is the key to great looking exterior directories.**

**It's as versatile as you need it to be.**

The system's robust, extruded aluminium posts, poles and panels combine to provide exterior directory signs with real presence. Free-standing or wall-mounted, any number of "looks" can be achieved using Infopanel decorative post caps and corner components. You can even illuminate your exterior directories with Infopanel Luminaire. Infopanel Edge and Brace components allow custom panels of any size to be used, adding even greater impact to your exterior signs.

# SlimSlatz

## Low Profile Interior Directory System

Elegant  
directories

Refined signs

Attractive  
profiles

Architectural  
appeal

### The SlimSlatz system combines versatility and elegance.

This refined sign system offers the same attractive user benefits as the original Slatz concept. Spandex designers have condensed the Slatz virtues of simplicity, versatility, and functionality into an assembled profile of less than 8mm - though nothing has been sacrificed in terms of appearance. Every SlimSlatz component has been designed with elegance in mind. Top and bottom faceplates fit flush to the mounting surface. This conceals the inner workings of the directory and provides a perfect finish to a perfect sign system.

SlimSlatz co-ordinates beautifully with every other system in the Spandex range. Which means that even the smallest interior sign can complement the largest exterior identity programme.

# Sculptura

## Monolith Sign System

Free-standing  
directories

Corporate  
identity signs

Information  
systems

**Sculptura is the system  
to call for when a  
project cries out for  
something different.**

Create free-standing columns with  
radius, triangular  
or square profiles. Give  
your signs the size and  
proportions which will  
guarantee maximum  
visual impact.

Incorporate Slatz directories  
or design stencil cuts for  
flush-fitting sheet aluminium  
and back illumination.

The possibilities for  
Sculptura are endless.

# Klick Rail

Flexible Face Signbox / Trim System

Large fascia signs

Forecourt canopies

Illuminated or non-illuminated

Single or double-sided

**Klick Rail is the professional approach to big signs. Illuminated or non-illuminated, Klick Rail gives you biggest and brightest single or double-sided signs.**

The Klick Rail framework utilises flexible face materials. Its highly effective tensioning system takes all the strain out of even the largest signs.

So you can have the freedom to create fascia signs of virtually any size with Klick Rail. And it lets you take signs around corners seamlessly. Perfect for projects like filling station canopies.

# Festival & Bannertrack

## Flexible & Rigid Banner Support Systems

Hanging banners

Temporary signing

Rigid pennants

- **Festival banner poles turn the humble banner into a refined architectural feature.**

From shopping malls to exhibition halls; Festival can be seen supporting banners and attracting attention. Based on our successful Signpole 20 and 40 aluminium extrusions, Festival uses the minimum of components to maximum effect. Hanging or projecting; with plain or decorative moulded end caps;

Festival is easy to use and can co-ordinate beautifully with other Spandex sign systems.

- **BannerTrack is new, permanent solution to displaying temporary signs. From promotional banners to poster-sized prints.**

With its patented 'twist and fix' fasteners and unobtrusive aluminium profile, BannerTrack solves the problem of drooping banners once and for all. Banners and signs of virtually any length can be installed, removed or repositioned effortlessly. BannerTrack can be recessed or taken around corners and looks great as a contrasting décor line or custom finished to match an existing colour scheme.

# Slatz

## Interior Directory System

Wall-mounted directories

Suspended directories

Projecting signs

Desktop signs

**The Slatz directory system is nothing short of a design classic. So simple, yet so versatile.**

Slatz directories can be installed just about anywhere. Alcoves and inconvenient architecture are no problem for the unique face-fitting components of the Slatz sign system. Slatz directories can even be recessed. Slatz components can be used to create everything from a single desktop sign to an entire programme of co-ordinating interior directories. Wall-mounted or free-standing; projecting or suspended; single or double-sided; the Slatz directory system does it all. Which is why Slatz is the preferred choice of architects, designers and signmakers worldwide.

Illuminated  
signboxes

Functional sign  
frames

Single or  
double-sided

Wall-mounted  
or projecting

**The Mainframe signbox system makes the perfect fascia signbox. This versatile system accepts rigid acrylic face material from 3mm to 6mm, which can be stencil cut or decorated with translucent films.**

Mainframe's design allows easy access to electrical fittings for problem free maintenance.

Square section or curved edges; single or double-sided; wall-mounted or projecting; fixed direct or on stand-off brackets; the choice is yours with Mainframe. With its non-illuminated counterpart, Miniframe; you won't find a better way to produce illuminated signboxes or non-illuminated sign frames.

# SlimSlatz

## Low Profile Interior Directory System

Elegant directories  
 Refined signs  
 Attractive profiles  
 Architectural appeal

### The SlimSlatz system combines versatility and elegance.

This refined sign system offers the same attractive user benefits as the original Slatz concept. Spandex designers have condensed the Slatz virtues of simplicity, versatility, and functionality into an assembled profile of less than 8mm - though nothing has been sacrificed in terms of appearance. Every SlimSlatz component has been designed with elegance in mind. Top and bottom faceplates fit flush to the mounting surface. This conceals the inner workings of the directory and provides a perfect finish to a perfect sign system.

SlimSlatz co-ordinates beautifully with every other system in the Spandex range. Which means that even the smallest interior sign can complement the largest exterior identity programme.
